

Who is The Sprinkler Guy?

The Sprinkler Guy inc. is an individually owned and operated business. I have been repairing and maintaining both small residential sprinkler systems and large scale commercial properties since 1992. As the owner and sole employee I am able to focus on customer service and excellent quality workmanship. I use only the highest quality parts and the best products in the irrigation industry.

If you are located in my service area, than I invite you to become a member of The Sprinkler Guy inc. family.
